

END OF OPAL-RAD PACS – SWITCH TO: **iQ-4CLOUD**

Konica Minolta will discontinue support for OPAL-RAD PACS. For those looking for a reliable and future-proof solution, now is the perfect time to upgrade to the powerful iQ-4CLOUD. Discover the numerous benefits of the cloud-based PACS solution from IMAGE Information Systems.

Cost effective

- Universal platform (ortho, cardio, radiology, vet)
- Work from anywhere (support of smartphone, desktop, tablet or laptop computer)
- Capital-expenditure free, no IT maintenance cost (DICOM, HL7, text based)

Web based access

- Patient portal/Physician portal
- QR code for patient portal access
- Automatic email notification for referring physician or manual email to ask for second opinion

Imaging

- Dedicated orthopedic measurements, e.g. 1-click Gonstead analysis, Cobb, spinal curves and labeling
- Dedicated radiology measurements, e.g. perpendicular and interior angle, ratio, ROI window
- Dedicated cardio measurements, EF by Simpson, mitral regurgitation
- Dedicated veterinary measurements, e.g. TPLO, TTA, VHS and 3D measurements for TTTG
- Additional image filters, e.g. smoothen, sharpen, remove X-ray grid (mainly for vets)

iQ-4CLOUD PRO

- Local viewer (iQ-VIEW) including:
 - + 3-level Hanging Protocol
 - + Intelligent prior study management
 - + DICOM and non-DICOM import and export
 - + Paper print and DICOM print
 - + CD/DVD burning

iQ-4CLOUD PREMIUM

- Easy integration with almost any practice management system
